## 2017 Inventory of Living Collections

Table information: Data for all living accession items (n = 3570) current as of January 1, 2018. Taxa appear alphabetically by Genus. 'PC' denotes 'Provenance Code' (plant origin), where 'G' = of cultivated/garden origin; 'W' = of known, direct wild origin; 'Z' = of known, indirect wild origin; 'U' = unknown/unrecorded origin

Accession item	Taxon	PC	Item Location
2013-178*A	× <i>Gordlinia grandiflora</i>	G	NURS-FLD-E
1972-049*A	× <i>Mahoberberis aquisargentii</i>	G	BORDER
1977-152*A	<i>Abies bracteata</i>	U	PINE-GROVE
1993-017*A	<i>Abies concolor</i>	G	ARB-CTR
1993-017*C	<i>Abies concolor</i>	G	WFW,N1/2
